

I 100% back the current Do Not Call Law in NJ. I believe if the FCC decides to overturn it because of pressure from telemarketers it would be a disgrace! I don't believe telemarketers have ANY right to call my home whenever they feel like it and pressure me. Since I have signed up on the Do Not Call list, I can come home from work on the weekdays and actually relax. I don't have to worry about my phone ringing every 10 minutes in the evenings and on the weekends when I'm trying to spend quality time with my family. I would be totally outraged if the FCC allowed telemarketers to invade my home and interrupt the peace in my home.

Please DO NOT let this happen!
